

## **03. Technical Specifications**

### **03.10 PARQUET SIZES**

The patterns and designs available in parquet flooring are almost limitless, but generally speaking most standard patterns are made using either;

260 x 65 x 19 mm                      or                      400 x 80 x 19 mm boards

Other sizes and thicknesses are available, but for stability reasons 19 mm is regarded as the preferred thickness.
